

SAVEETHA SCHOOL OF ENGINEERING
CSA15- CLOUD COMPUTING AND BIG DATA ANALYTICS
LIST OF EXPERIMENT 2

2. Create a simple cloud software application for Flight Reservation System using any Cloud Service Provider to demonstrate SaaS.

Aim

To develop a cloud-based **Flight Reservation System** using **Zoho Creator** and deploy it as a **Software as a Service (SaaS)** application, enabling users to book, manage, and view flight reservations online.

Procedure

1. Log in to **Zoho Creator** using a valid Zoho account.
2. Create a new application named **Flight Reservation System**.
3. Design forms such as:
 - Passenger Details
 - Flight Details
 - Flight Booking
4. Add necessary fields including Passenger Name, Email, Mobile Number, Flight Number, Source, Destination, Travel Date, Seat Class, and Booking Status.
5. Create reports to display available flights and reservation details.
6. Configure workflows for booking confirmation and input validation.
7. Set user roles and permissions to allow secure access for administrators and users.
8. Publish and deploy the application on the Zoho cloud platform.
9. Test the application by creating, updating, viewing, and cancelling flight reservations through the web interface.

Snapshots:

This screenshot shows the 'Add User' form within the 'Flight reservation system' application. The browser address bar indicates the URL is `creatorapp.zoho.in/samikshagopinath/flight-reservation-system#Form:Add_User`. The application header shows 'Flight reservation system' and a trial expiration notice. The left sidebar contains navigation options: 'Add User' (selected), 'Users', 'Flight Searches', 'Payments', and 'Pick Your Seat'. The main form area is titled 'Add User' and contains the following fields:

- Registration Date: 05-Mar-2026
- Name: Two input fields for First Name and Last Name.
- Gender: Radio buttons for Male (selected) and Female.
- Date of Birth: dd-MM-yyyy
- Age: #####
- Mobile: +91 81234 56789
- Email:
- Address: Two input fields for Address Line 1 and Address Line 2.

The Windows taskbar at the bottom shows the time as 21:17:44 on 05-03-2026.

This screenshot shows the 'flight search form' within the 'Flight reservation system' application. The browser address bar indicates the URL is `creatorapp.zoho.in/samikshagopinath/flight-reservation-system/#Form:flight_s...`. The application header and left sidebar are consistent with the previous screenshot. The main form area is titled 'flight search form' and contains the following fields:

- Name: Two input fields for First Name (Samiksha) and Last Name (Samiksha).
- Email: samikshagopinath@gmail.com
- Departure City: Chennai
- Class: Economy
- Destination city: Bengaluru

A 'Submit' button is located at the bottom of the form. The Windows taskbar at the bottom shows the time as 21:21:55 on 05-03-2026.

Result:

A cloud-based **Flight Reservation System** was successfully developed and deployed using **Zoho Creator**. The application enabled users to reserve and manage flight bookings online through a web browser, demonstrating the **Software as a Service (SaaS)** model by providing anytime, anywhere access without requiring local software installation.
